Profile

with expertise in front-end and back-end development. Proficient in HTML, CSS, JavaScript, and PHP, I bring a strong foundation in building responsive and dynamic websites. A results-driven individual committed to delivering high-quality and user-friendly web applications.

Work experience

08/2020 – 05/2024
Nairobi, Kenya

Software and web developer
WEBPRO
- Contributed to the development of user-friendly web applications by designing and implementing front end and back end components
- Collaborated with a team to build and enhance features on web applications
- Utilized programming languages and technologies to create efficient and functional software solutions

Education

05/2020 – 08/2023
Nairobi, Kenya

INFORMATION TECHNOLOGY | COMPUTER SCIENCE
University Of Embu
- As a 2nd-year Computer Science student at the University of Embu (expected May 2027), I'm equipped with a strong foundation in computer science, focusing on data structures and algorithms. I'm actively honing my web development skills, becoming proficient in both front-end (HTML, CSS frameworks like Sass and Tailwind CSS, JavaScript with React.js) and back-end development (PHP, SQL). Additionally, I understand the importance of data exchange and utilize JSON effectively. Through hands-on projects, I've gained experience collaborating on real-world web applications.
